

XLVII OSI SYMPOSIUM

International Conference on Advances in Optics and Photonics Instrumentation (OPTOIn - 2024)

ABOUT CSIR-CSIO, CHANDIGARH

CSIR-CSIO, Chandigarh is a constituent unit of the Council of Scientific and Industrial Research (CSIR), which is India's largest research and development organization. CSIO has been involved in the design and development of a wide range of scientific and industrial instruments in the niche areas of optics and photonics, agrionics, sensors, energy management, biomedical, and material science.

ABOUT THE CONFERENCE

The annual symposium of the Optical Society of India is the flagship conference in the broader area of optics and photonics in India. Researchers, innovators, scientists, professors from all over the India and abroad take part in huge number in this conference to deliberate on scientific progress, technological innovations and related instruments. CSIR-CSIO is one of the leading national laboratory for optics and photonics instrumentation and therefore this jointly organised conference would provide an ideal platform for interaction among researchers, scientists, professors, industrialists, innovators, startups etc. to participate, interact and showcase new products and technologies to a wider audience, who are direct users of these instruments.

SCOPE OF THE CONFERENCE

- Optical Design, Fabrication & Metrology (ODF)
- Optical Interferometry & Holography (HOL)
- Diffractive, Freeform, Adaptive, Integrated Optics and Silicon Photonics (DFA)
- Microscopy and Imaging Technologies (MIT)
- Fiber Optic Devices & Instrumentation (FOI)
- Nano-photonics, Plasmonics, & Metamaterials (NPM)
- Photonics for 6G & THz Technologies (P6G)
- Optics for Space, Defence, and Aerospace Applications (SDA)
- Quantum Optical Technologies (QOT)
- Optoelectronic and micro-opto-mechanical Devices (OMD)
- Augmented Reality, Virtual Reality and 3-Dimensional Displays (ARVR)
- Optical Coating Technologies (OCT)
- Optical Sensors (OS)
- Artificial-intelligence and Machine-Learning in optical instrumentation (AML)
- Bio-photonics & Medical Optics (BMO) Lasers and Nonlinear Optics (LNO)

OPPORTUNITY FOR INDUSTRY

The conference will be attended by professors of leading academic institutes like IITs, Central and state Universities, NITs, IISERs etc. and scientists from leading R & D institutes of CSIR, DRDO, DAE, ISRO, etc. so this is the best opportunity for industry to showcase or launch their products in front of a wider audiences and users.

Industry may take advantage of this unique platform to gain following benefits:

- Launch of new products and highlight exciting ones.
- Increase brand awareness and elevate your company profile.
- Network with specialists, seek international partners and form new alliances.
- Increase visibility in focused markets.
- Communicate your message to a highly qualified scientific and expert community.
- Build relationships for the future.
- Attract new talent and strengthen partnerships.
- Generate sales leads and educate the market.
